FEATURED PROJECT

SYSTEM 200

WARRANTED Elastomeric, Non Skid Waterproofing Polyurethane System Elevated/On Grade Parking Structure

Monochem System 200 is a high performance, liquid applied, elastomeric polyurethane system that displays ultimate waterproofing properties. The system consists of a two-part epoxy primer, a one component aromatic urethane membrane, and a two-component fast cure polyurea topcoat with silica sand incorporated for non-skid performance.

Project Name:

Southern California Edison Helicopter Landing Rooftop
Rosemead, CA

Supplier:

Vista Paint

Applicator:

Davis Painting

Completion Date:

May 2014

Coating System:

Primer:

- Monochem 21
- 100% Solids Epoxy Primer
- 3 mils DFT

Elastomeric Base Coat:

- Monochem 310
- 100% Solids Moisture Cured Polyurethane
- 32 mils DFT (16 per coat)

Top Coat:

- Monochem 610
- 78% Solids Fast Cure Polyurea
- 12 mils DFT per coat

- Permashield 2000
- 100% Solids Fast Cure Polyurea
- 13 mils DFT per coat
